Information on Services and Programs offered by *Accurate Clinic*

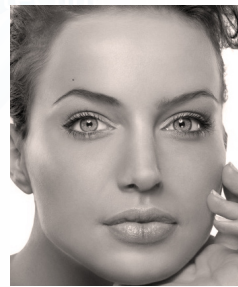

Our Mission

Our vision at Accurate Clinic is to deliver excellent medical care by providing a multidisciplinary approach to the assessment and management of our patients. We have added new members to our clinic team who bring with them their own individual skills and experiences that will enhance your assessment and provide a greater range of treatments to improve your well-being.

Physical Therapy & Psychotherapy

We have recently engaged the services of Sue Drecktah and Ulli Naresh, licensed physical therapists who will assess our pain patients for how their conditions have affected their strength, range-of-motion and balance. They will provide guidance on how to improve the limitations painful conditions place on the activities of daily living. These services are provided at no extra cost as part of the pain management program.

Anjeanne Weiss, our psychotherapist, has developed some new programs designed to help our patients cope better with many of the difficulties and conflicts inherent in their lives. From offering assistance in the management of chronic pain including migraine headaches to providing help with quitting smoking or losing weight to offering marital and couples counseling, Anjeanne is available to aid our patients on many levels.

New Aesthetic Services

Improve your appearance, improve your quality of life!

Are you ready to make those changes in your appearance you've been thinking about? Now is the time! Making a positive change in your appearance can change your outlook about yourself and improve your quality of life.

Through treatment options such as Botox®, dermal fillers, chemical peels, micro-dermabrasion and massage, Accurate Clinic can assist you in getting rid of unwanted lines, age spots, spider vessels and hair.

Considering Botox®? It's great! With a brief procedure associated with very little discomfort, you can obtain significant improvement in certain facial creases to achieve a more youthful appearance that can persist up to four months.

Improved Accuracy

with New
Computer Based
Medical Records

We have initiated new computer based medical records at *Accurate Clinic*. In addition to being better able to track your health trends, this will enable us to coordinate your medical care with your other health professionals. By coordinating your care, we can arrange consultations and testing more efficiently as well as avoid medication interaction error.

These changes represent just the beginning of our efforts to improve the quality of care at *Accurate Clinic*. We are planning to add acupuncture and laser therapy for pain.

Massage Therapy

Treat yourself to a massage ...
you deserve one!

Relax, relieve your stress and feel better after a therapeutic massage tailored to your needs. It will help reduce your pain as well as ease your anxiety. Schedule your massage same day as your medical appointment or another time at your convenience. Our massage therapists offer a variety of styles including:

Trigger Point, Swedish, Deep Tissue,
Sports, Reflexology, Hot Stone,
Chair Massage, Prenatal, Geriatric

Therapists Victoria Geeck and Ryan Paliser

rates:
30.00 - 30 minutes
60.00 - 1 Hour

Weight Loss Program

Got Unwanted Pounds?
learn how to lose
the weight you want
and keep it off...

Let us help you take the first step! Our Weight Loss Program includes an assessment by our physician, dietitian, and our psychotherapist to provide an integrative approach to weight loss designed for greater long term success. The weight loss program may include medications when indicated, expert guidance in dietary management such as food supplement recommendations, and professional assistance in changing maladaptive eating habits detrimental to general health and weight management.
