COOKIES

Cookies, also known more commonly as “Girl Scout Cookies,” is an Indica dominant hybrid (60% Indica, 40% Sativa) strain created through a three-way cross of the potent OG Kush X Durban Poison X Cherry Kush strains. This tasty bud has a cult following because of its cookie-like flavors. Cookies has a taste of earthy kush with accents of sweet cherries and nutty lemon. The aroma is very similar, with an earthy nuttiness accented by a slight pungency and smooth sweet vanilla and spices.
