Eric Ehlenberger MD

CVS - List of Attachments

I have provided the following documents in response to your inquiry into my practice. These are but a very few of the documents that I use in my practice to guide decision making, monitor safety and educate not only my patients, but other clinicians co-managing my patients. There are literally hundreds of educational documents, I have selected these few as representative of how I manage my patients with chronic pain. I believe it will reassure the reader of the thoroughness of my patient care.

This list of attachments includes a cover note introducing the documents directed at responding to your inquiry regarding my practice:

- CVS Cover Note
- Letter to Pharmacist — High-Dose ImmediateRelease Opioid Pill Counts
- Letter to Pharmacist — Why Patients Travel More Than 50 Miles

This is a list of some of the documents that I use for assessing the safety of my patients' management, including documents directed at assessing a patient's opioid management:

1. Safety & Compliance Assessment - Brief (focal assessment of potential safety concerns)
2. Safety & Compliance Assessment- Full (the full assessment of most every conceivable variable that potentially impacts safety relative to the use of opioids. Please note there are many documents listed here, too many to try to detail here, please contact me if you have any questions)
3. Opioid- Increase Dosing worksheet - (A worksheet to guide decision making when a potential need for increasing a patient's opioid dosing)
4. Treatment Summary/Plan - High Morphine Equivalency (a worksheet to guide decision-making when a patient is provided high morphine equivalency dosing)
5. Sample ME Graph (This is of a new patient currently applying for my program - I can only get data from the PMP extending 6 years back. I monitor the ME graph on all patients)

This is a list of some of the handouts provided to patients and clinicians, including pharmacists:

6. Handout- Introduction to Accurate Clinic
7. Handout- Accurate Clinic Integrative Medicine Program
8. Handout- Why the 50 mile policy is inappropriate when applied to Accurate Clinic
9. Handout- Clinical Rationale for Immediate Release Opioids
10. Handout - Buprenorphine with other opioids
11. Handout - Microdosing Rotation to Buprenorphine

This is a list of some of the handouts provided to my patients, introducing them to the 4-Domain protocol for the management of chronic pain, listed here in the order in which they are introduced

12. Handout - The 4-Domain Approach - Why Nutraceuticals?
13. Handout -The 4-Domain Approach - Introduction
14. Handout - The 4-Domain Approach - The Foundation
15. 4-D Protocols - A Summary Introduction for Clinicians - Extended (A clinician-facing handout provided to introduce the 40 protocols)
